FULL-STACK AND SHOPIFY THEMES DEVELOPER

Motivated and results-driven Web Developer seeking a challenging role as a Full-Stack Developer or Shopify Themes Developer. I bring a solid background in Front-End Development, particularly with the React framework, along with supplementary experience in Back-End Development, including Node.js and SQLite. Additionally, I have some DevOps experience, with the majority of my portfolio Dockerized and hosted on an Ubuntu VPS.

KEY SKILLS

- **Proficient in Front-End Technologies:** HTML, CSS, JavaScript, TypeScript, ReactJS, NextJS, TailwindCSS and Shopify Themes with Liquid.
- **Back-End Development Skills:** NodeJS, ExpressJS, and working knowledge of Directus CMS with SQLite and Postgres.
- **DevOps Familiarity:** Comfortable hosting Dockerized projects on a Ubuntu VPS.
- **Version Control:** Competent with Git and GitHub.
- **Web Design:** Knowledge of the basics of Figma Design Tool.
- **General IT:** Background in IT Assistance: Google Office Software and General IT tasks.
- **Graphic Design:** Experience creating posters, product labels and various other content.
- **Adaptable & Quick Learner:** Eager to learn and implement new technologies quickly.
- **Effective Communication & Collaboration:** Strong communication skills, experienced in both independent and team-based work, including client interaction.
- **Efficient Project Management:** Consistently meets deadlines with strong organisational skills.
- **Growth-Oriented Mindset:** Thrives on constructive criticism and continuous improvement.

PROFESSIONAL EXPERIENCE

Freelance Web Developer   **MikeNewXYZ & NotBaldrick**   **Sept 2022 to Present**

As a freelance web developer, I create high-quality websites from Shopify and WordPress themes to standard marketing sites, usually using ReactJS. I ensure my work is of high quality and approved by the client. During my time with clients, I maintain frequent contact, ensuring they receive a product they are pleased with.

IT Assistant   **Mieko421 (Family Business)**   **Jul 2018 to Apr 2022**

I created eBay product listing templates using HTML and CSS, managed and resolved issues with the eBay shop, fixed software and hardware computer issues, captured and edited product photos with a DSLR camera and Photoshop, and designed labels for various products using Photoshop.
